

A clear, portrait-style inventory pouch with a black top flap. The pouch is made of a glossy, clear plastic material and is shown against a light blue background. The top flap is folded over, and the pouch is otherwise empty.

This is a 'portrait' style Inventory Pouch generally placed on pre-owned vehicles. It would normally hang inside the vehicle.

HOW TO APPLY THE VEHICLE CARD POCKET'S BASE INSIDE THE PLASTIC POUCH

1. Remove backing from one side of adhesive strip and place one on each side raised platform on the back of card holder base.
2. Once securely on platform remove remaining back to expose adhesive .
3. Open the plastic pouch and *without dragging* the adhesive against the back of the plastic pouch place the base of the Vehicle Card Pocket inside the plastic pouch all the way to the bottom.
4. Centre the base and then press the back of the base against the back of the plastic pouch to secure the adhesive strips.
5. Using a sharp knife, cut two holes to expose the brackets only. There is no need to make any incision larger than the two brackets.
6. Slide Pocket Business Card Holder down on brackets until it **clicks** into base.

HOW TO APPLY SIGNS

1. DO NOT remove backing
2. Place sign inside plastic envelope.
3. Centre bottom of sign approximately 2 inches (5 centimeters) above top of Card Pocket.
4. Tape the top of the sign to the inside of the plastic pouch
